PADEN REPORTS AIRPORT PROGRESS FOR CAMERON

W. F. Paden, manager of the Chamber of Commerce, on request of the board of directors Tuesday night, issued the following statement on behalf of the Chamber of Commerce, concerning developments in the plan to obtain a military airport for Cameron:

Various phases of the "Airport for Cameron" project were discussed at the Tuesday night meeting of the Chamber of Commerce, and a large volume of exchange correspondence between the Chamber of Commerce and army and aviation officials was read and carefully considered. Several speakers pointed out that possibilities for Cameron were as bright as ever and that action now, no doubt, soon would indicate failure or success.

It was explained here in March that army officials at Randolph Field, San Antonio, would inspect the various field sites, housing facilities, community morals, etc., of every city making a bid for a military airport; and that after the army approved or disapproved sites, officials of the Aviation Enterprises, Inc., Houston, would be free to select a site from the army approved list. To date, no city in Texas, interested in the Houston firm's field plan, has had its sites approved or disapproved by San Antonio scouts, according to the latest information available.

The delay in inspection was caused by the heavy rains of the past few weeks. Early last month when Texas cities were expecting the visit of Randolph Field experts, army men suddenly shifted their attention to sites offered in Oklahoma by more than 150 cities. Heavy rains in that state delayed the work, and the huge task there was completed only this week. Texas cities, therefore are now in line to have their offerings inspected.

Local CC officials are expecting that inspection in the next few days. John B. Henderson, general chairman of the local aviation committee, Dr. A. E. Kruse and Manager W. F. Paden, discussed many phases of the plan here Tuesday night. It was pointed out by them and other speakers that everything possible had been done here in the interest of the plan, and the several letters from aviation and army men indicated that they were impressed and highly pleased with the efforts of the Cameron Chamber of Commerce.

In other words, the stage is set and CC workers are anxiously awaiting the officials who will make the inspection. On the other hand, if a Cameron site is approved by the army men, there will be another lapse of time for the Houston aviation officials to make selection of the approved Texas offerings.

To date, the Chamber has spent only $105 for the completion of all phases of work relative to the airport project.

Residents Asked to Help On Blocking Streets for Paving

Residents who live along the street running from Terry's Grocery to the Court house square now ready for paving are asked to cooperate with the paving contractor to keep the street closed.

Those who live on the street are asked to replace the barriers so that intersections may be kept closed to traffic..

It is vitally necessary, said Mr. Reed that this be done. Traffic to homes east of the street can find a way out by going down Highway 77 and turning north at the old swimming pool.

When necessary to remove a barrier to get to their homes residents are asked to replace them.

All garments for the Red Cross will be called in by May 20th it was announced here Wednesday by Mrs. Hogan, publicity director for the organization.

Considerable time is required to pack these garments and it will be necessary to get them all in as soon as possible.

The need was never more acute than at this time. More volunteers and more workers are necessary if the work laid out by the Red Cross is to be done.

In the long history of Red Cross work in Milam county the people have never before failed to respond. At present there is a lack of cooperation that places a serious responsibility on the county and the leaders of the Red Cross.

BRITISH 5TH COLUMN MAY SPONSOR HESS

Soviet Russia today sent her crack airmen into Irak.

The government of Joseph Stalin said that it was a reprisal against England for aiding Finland during the recent war in which Russia finally won with German aid.

This marked the first act of formal participation in the war on the side of Germany.

In Berlin Hitler's spokesmen said the world and especially England would soon be confronted with more real news, one diplomatic and the other military.

The German press had summarily dropped the Rudolph Hess incident and the British were beginning to believe that Hess was serving Germany and had no other reason to fly to the British Isles.

The Daily Herald predicted that Hess felt certain of a Fifth Column in Britain, at least had good reasons to believe he might be with friends and so begin a movement. Many arrests may follow.

The Scots were rioting and many attempted through demonstrations to show their displeasure and mistrust of Hess. They wanted to mob him.

Congressman Martin Dies said Hess should be put in irons and forgotten.

The military and diplomatic moves Germany has indicated will be real news are believed to be Russian entry into the war and a complete capitulation of Turkey.

There was little doubt Turkey could not hold out much longer with Germany and Russia both threatening her.

Soviet Russia will play a big part in the German campaign this summer.

Blue Bonnet Cafe Closed Monday Night

Fred Jackson's Blue Bonnet Cafe was closed Monday night.

Patrons who came Tuesday morning found the doors locked.

The cafe is one of the oldest of the modern cafes in the city. It was first established by a Greek about 16 years ago. Later it was purchased and operated by A. E. Smith, now City Marshal. Mr. Smith operated the old Newport Cafe for a number of years.

Mr. Jackson purchased the cafe from Mr. Smith several years ago. It was not known whether the cafe would be sold or re-opened.

AIR WAR RAGING ON WIDE EUROPEAN FRONT

Four hundred British bombing planes with escort fighters roared over Germany early Friday, blasting away with unprecedented devastation from the coast of Norway to Brest in France.

A direct hit was scored on one of the two pocket bttleships of the Germans in the harbor at Brest.

Hamburg and Bremen, chief industrial and port cities of Germany took their worst pounding of the war.

Berlin did not escape. The RAF roared over the German capital and gave the Germans substantially what London has been feeling for months.

Germany roared back and carried out equally devastating raids over England.

The British lost 11 planes shot down over Germany, said the Nazi. The British said 49 German bombers were shot down over the island last night and early Friday.

London said France has given under to German demands and a full scale co-operation was imminent.

The American viewpoint is that France will not aid Germany to that extent.

How Does This Attack Threaten the Interests of Every Man, Woman, and Child in America?

1

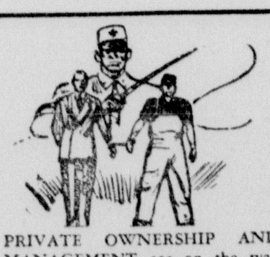
First Effect of Totalitarianism—

Destruction of Private Enterprise and Enslavement of Labor

Great bankers, agrarians and industrialists, like Fritz Thyssen, subsidized the Nazi party to destroy the organizations of the workers. Once this was accomplished, it was thought that the greatest obstacle to profit would be removed.

But these captains of industry had unleashed a force they could not control.

2



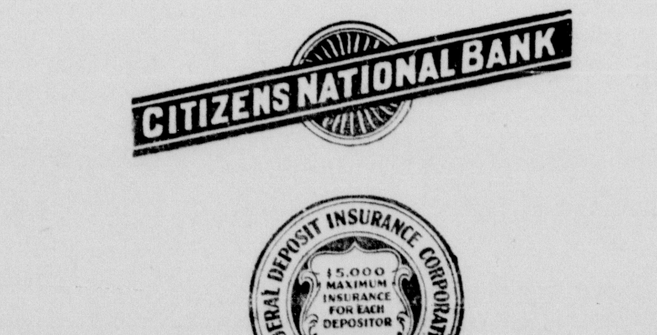
PRIVATE OWNERSHIP AND MANAGEMENT are on the way out in Nazi Germany. Profits are more and more being appropriated by the State. THE WORKER has no voice in deciding where he will work, what job he will have, what hours he will work, or what pay he will receive. He gets less pay for more work, up to the limit of his capacity to survive.

3

Nazism and Communism—Brothers Under the Skin

The Nazis said to the captains of industry: "Support us and we will be your bulwark against Bolshevism." The Communists said to labor: "Support us and we will destroy the capitalists." Yet in their essential institutions Nazism and Communism are almost indistinguishable. Both destroy private property and the rights of labor.

4



. . . so they invaded Rome—the Barbarians hungered for land!

Four hundred years the Roman Empire flourished; centuries of luxury had softened them, and their security had already begun to ebb when the Vandals swept over the Alps to feast upon the excesses which to them had become fabulous. But it was more than lustful greed that drew the northern hordes to sunny Italy—it was the fudamental hunger for LAND, the same hunger that has motivated man throughout the ages. . . . .

LAND IS WEALTH

The desire to own land is basic in man—no commodity, no other form of wealth, serves to supply man with the spiritual satisfaction that comes of being a "landowner." Invest your savings in real estate—know the pride of owning property.

TWO DICTATORS WILL FIGHT SIDE BY SIDE

Joseph Stalin and Adolph Hitler will form a partnership for conquest of the world.

That was openly predicted in informed quarters Saturday as it was announced that the Dictators would meet within two weeks.

Last week Stalin kicked out Molotov, his foreign minister and took the job himself. It is the first time Stalin has held a job of any kind in the government of Russia.

Stalin has recognized the conquest of Belgium, Norway, Bulgaria and Yugoslavia by withdrawing representatives from those countries.

Belgium will never be restored to independence and neither will Norway or Holland. Germany's conquest has become so complete that Stalin thinks there is no possibility of any defeat overtaking Hitler and is moving in under the wings of his conquoring hero.

Saturday morning it was announced that German troops have begun to move into Syria. The numbers were not disclosed and as yet it was not believed they were sufficiently high to cause trouble.

Syria belongs to France. Germany has demanded free access to Syria which is only a short distance from the Suez Canal. The canal will fall shortly by a pincer movement. The British will be defending the zone from two angles, north and south.

Turkey is due to fall a ripe plum into the Axis bag. The British lost Turkey by failure to fight in the Balkans.

Hitler will soon attack the Straits of Gibraltar and from that conquest will move on to Dakar and the Azores. That will put the Nazi in the south Atlantic, so says close observers.

The compaign in the far east with Germany is to join up with Japan and thus pinch the great India away from the British. In this way Germany can get supplies of rubber, oil and tin and at the same time link up her alliance with Japan.

As was predicted in these columns more than a year ago, Joseph Stalin has never had any other intention than to fight the Democracies. Dumb statesmen have failed to see what is actually happening in this war.

When the Germans get Dakar in West Africa they will be off the Azores and actually within striking distance of South America.

The war in the air continued with blows on both sides of the English Channel.

British shipping losses have been so great that grave concern is being felt in this country.

★29 MILLION!

A record never before approached!

★When the 29,000,000th Ford rolled recently from the assembly line, an all-time record for the industry was set. 29,000,000 units built by the same management and all bearing one name—a name that has become one of the best-known trade-marks in the world!

It is significant that this achievement comes at a time when our country is making a mighty effort to re-arm swiftly. For to further that effort, to help speed it along in any possible way, we have offered the vast facilities of the Rouge Plant and every ounce of our experience.

As you read this, a new $21,000,000 Ford airplane engine plant, started only last fall, is nearly completed. A new magnesium alloy plant, one of the few in the country, is already in production on lightweight airplane engine castings. Work is right now under way on a new $18,000,000 plant for mass production of big bomber assemblies. Orders have been filled for military vehicles of several types, including army reconnaissance cars, staff cars and bomb service trucks.

In the midst of this activity for National Defense, building the 29 millionth Ford car is simply one part of the day's work.

The public has acclaimed the 1941 Ford car as the finest in Ford history. Ford Dealers are enjoying their greatest sales and expecting their best year since 1937.

It is good to be *producing* the things America needs, and to be setting records on the way!

Negro Jailed After Attempted Attack on Three Other Negroes

Lorenzo Colbert, negro, is in the Milam county jail, awaiting outcome of charges filed against him early Tuesday morning by Constable Pete Harwell.

Colbert was arrested Sunday but it was not until Tuesday that the information concerning the occurance was accidentally descovered by the Herald. At first the officials hesitated to give the facts, but after about 30 minutes the story was obtained.

Justice of Peace Womack Brashear discussed with Constable Pete Harwell in the presence of the reporter the advisability of releasing the facts.

The case was being transfered to the county court when the discovery was made that a crime had been commited.

The facts as finally obtained are substantially as follows:

Harwell received a telephone call to come to Silver City to arrest a negro who had attempted to attack three other negroes. When Constable Harwell arrived the negro had escaped. Colbert, the negro, had attempted to attack D. C. Ray, negro, with a shotgun, Nettie McLaughlin, negress, with an axe, and Rosie Lee Guy, negress, with a gun.

The negro was captured near Jones Prairie by Constable Harwell while attempting to escape. The negro carried a 410 gauge shot gun and had a pair of brass knucks and in his pockets were 4 shells for the gun.

Three cases were filed early Tuesday in county court against Colbert.

QUIT REICH BECAUSE HE CAN'T STAND ALLIANCE

"I came to save humanity," said Rudolph Hess, third ranking Nazi and life long friend of Adolph Hitler, when a Scotish farmer poked a pitchfork at him and made him captive after he parachuted from a falling Merrerschmidt plane near Lake Lohman, Scotland, Saturday evening.

Tuesday another statement attributed to Hess was: "Germany and Russia are forming an active military alliance and I cannot codone the Russians."

During the revolution in Germany Hess was wounded fighting the Bolsheviks. It was hatred of Russia that brought Hitler to power. Hess was his right hand man.

Hess, who had been taken to a hospital in Glasgow, Scotland, for treatment of a broken ankle, had been removed to a secret place and the news agencies were not told where the German leader had been secreted.

It was reported in London that Prime Minister Churchill and Anthony Eden, British foreign Secretary, were to interview Hess in London where he was to be taken. This was not confirmed.

The British House of Commons warned Churchill to be careful of Hess. The British people were demanding to know why Hess had taken refuge in Scotland.

The members of the House of Commons were suspicious of Hess and did not want Churchill to rely on what he may say.

It was certain that the British were taking Hess lightly and were inclined to believe that he had flown the Reich because of growing disaffection between himself and Hitler.

The German government issued a statement saying the flight of Hess was a tragedy to the Reich but beyond saying that nothing was forthcoming from the German capital.

The contents of a letter left behind by Hess were not revealed. He has a three months old son and the mother and baby were left in Germany.

After more than three days since Hess stole a march on the German leader and flew to Scotland, there was nothing to indicate his flight was anything except an escape from persecution in Germany. Any other significance to his flight has yet to be disclosed.

The Germans said nothing would be affected by Hess' flight from Germany. The war, they said would be continued. Hitler had taken over the duties of Hess who had been made chief of the Nazi party in Germany.

On the morning of September when Hitler addressed the Reichstag in Berlin to inform the world of his attack on Poland which set off the war, he designated Goehring as No. 1 Nazi, if he should die, and Rudolph Hess was designated No. 2 Nazi.

Last week when Hitler addressed the government, Hess sat in a chair next to the German Chancellor with a poker face. Hess is 47 years old. He was in the last war and spent some time in prison with Hitler where he wrote Mein Kampf for Hitler after the outline was dictated.

British physicians released a statement Tuesday through the British government after they had conducted an examination of Hess. The statement said the No. 3 Nazi is sound in health and very sane. The Germans first said Hess was suffering from mental disorders. The British physicians said this is absolutely untrue.

When Hess said he had come to save humanity, he may have had in mind the force of armys to be marshaled by Stalin, Hilter and Mussolini and perhaps Japan. Total world conquest will be atempted and this newspaper has pointed out all along the coming military alliance of the twin governments of Berlin and Moscow.

As the unprecedented flight of Hess pushed all news of the war into the background there began to emerge a picture of a new phase of air warfare. Bremen and Hamburg, chief German port cities were said to have been laid in waste in one of the most disastrous raids of the war.

Germany admited the British RAF had wrought great destruction over the Reich. Meanwhile the Germans were paying the British back for the raids on German towns.

In Egypt the Australians had won new important victories. The British fleet was again shelling Benghasi.

WITH THE BAPTISTS

Many mothers and loyal sons and daughters were present May 12, 1941, last Sunday's services. Mrs. Bradbury rendered a violin solo, Mrs. Inez Collins sang beautifully a special number, and Little Miss Jane Flinn gave a reading entitled "Our Debt to Mother." The congregation sang so joyously a praise hymn to God and to Mother, "Faith of Our Mothers."

In the evening hour Chaplain Leroy Raley of Camp Barkley was our guest speaker. He said there were in the several camps located every type of character; men with a great love for Christ and many with no love at all, which condition is the responsibility of Chaplains and every Christian in the land to make a supreme effort to correct.

Wednesday night was "All Church Night." There was supper for all who came, business to be attended to, and inspirational singing. We appreciate so much the G. A.'s and what they are doing.

Our congregation next Sunday will make an offering to the support of the Soldier Work in our military camps. Everyone will want to do their best for the support of gospel preaching among our American boys. The money raised will help build a $4000 chapel and support a camp pastor. All who have a part will receive red, white and blue ribbons to be pinned upon them. All our organization will want to have a part in this offering, from our Sunday School throughout the entire membership of our church.

Mr. Archer, Church Secretary at Fostepoo Heights Baptist Church, Fort Worth, will be here over the week end to get acquainted with our church. He is a prospective assistant for our work and every Baptist is urged to be present to meet him.

Sunday School at 9:45. Next to being a "perfect man" is a being a 100 per cent attendant at our Bible school. The 11:00 o'clock sermon will be "The Master's Call." Training Union 6:41. "The Christian Home" is our T. U. topic. What is your home today? What will it be tomorrow?

The Young Women's Auxiliary is observing its annual Focus Week over the Southland. In observance of this occasion the local YWA of our church is planning a week's activity of spiritual benefits. This fine group of young women will be recognized in the morning worship service May 18. At the evening service these young women will present the Patomime of the YWA hymn, "O, Zion Haste." No one will want to miss this beautiful and effective service.

Mr. Archer will lead us at 7:45 in the song sermon. You should be here.

Attending Church is praising God.

For St. Monica's Parish this is a Foremost occasion as this is the second young man to be ordained for the priesthood in its over fifty years of existence.

To add to the magnificence will be the fact that the first man to be ordained from this parish is a brother of Rev. Paul, the Rev. Ernest Michalka, who was ordained last year, and now stationed at Beaumont. "CROWN HIM WITH MANY CROWNS"

MATTHEW BRIDGES

Crown Him with many crowns,
The Lamb upon His throne
Hark! how the heav'nly anthem drowns
All music but its own
Awake my soul, and sing
Of Him Who died for thee.
And hail Him as thy matchless King
Through all eternity

Southern Select is the Best Tasting Beer

Mr. Miller's experience is interesting. He says: "I had been hauling a party of traveling men around Wichita Falls all evening. They were fine folks and I noticed they ordered only Southern Select beer—and raved about its swell taste. So when I went off duty I got some—and I found out then and there that *Southern Select is the best tasting beer.* Just try it and see!"

This is the only beer in the South brewed with distilled water—only the finest beer grains are used—and every drop is aged for months! No wonder it has that marvelous taste! Try it today!

Washington News
From Your Congressman W. R. POAGE

May 9, 1941.

Dear Friends:

The House has devoted most of past week to the passage of a bill which authorizes the United States Government to take over any ships that we need that can be found in our harbors. There are a large number of ships—especially Italian ships - that have been in American harbors for a long time. We have not detained these ships. They were at liberty to go anywhere they cared to, but in most instances they were afraid that they would be captured by the British if they ventured out of American ports. They have, therefore, remained in our harbors. The Danish Government is completely controlled by Hitler, and the British have announced that they would consider Danish ships as enemies, and this country has tied up their ships along with other assets of all the conquared countries to keep them from falling in the hands of their Axis conquarers.

We have never desired to take anything from anybody without paying for it, and the bill recently passed expressly provided full payment for all ships taken over by the American Government. Before we authorized the taking of these ships the Italian and German crews began to destrop their own vessels. In many instances they had completely wrecked the machinery before they were discovered at this work. Such action not only destroyed the usefulness of the ships but made them become active menaces to navigation in our harbors. It was a violation of both American and International law. Of course, the crews guilty of this sabotage were taken into custody, but that leaves the ships in our harbors taking up needed room.

Our Government needs ships. It is building ships and buying ships from anyone who has them to sell. Many of these ships will require much repair to make them serviceable, but I can see no reason why we should not use them. We have the unquestioned right to take any property (ship or anything else) belonging to our own citizens when the Government needs it. I can not believe that the Government has a right to take the property of American citizens and ot the same time does not have the right to take he property of aliens that happen to be in this country when we need it.—Of course, I recognize the duty of the Government to pay for all property. In case property is taken from American citizens, the Government of course pays in American money, but if the citizen owes the Government, the General Accouting Office will offset the citizen's debt against any payment. So, in the case of the German and Italian ships. These two nations owen the United States vast sums of money—nearly $4,000,000,000. Neither Germany nor Italy has paid anything on their debt for years. This bill provides that the value of these ships shall be credited against the sums these nations owe the United States, and that the private owners shall settle with their own governments.

It was, therefore, hard for me to follow the reasoning of the great majority of the Republicans and those Democratic appeasers who voted against taking those ships. I voted for the bill, which passed the House by about two to one majority The time has passed when we should allow anything to stand in the way of our defense—certainly we should not let Germans and Italians who sought to destroy these ships and block our harbors keep us from using the vessels. Neither should we allow either labor or capital at home to sabotage our efforts. To this end, the House this week passed a bill authorizing the Army and Navy to establish priorities so that every factory in this land would be compelled to furnish our military forces the things they need before selling their products in the regular course of trade. Of course, this only applies where there is a shortage of a certain article like aluminum.

Just this afternoon the House has passed a bill known as the Defense House Bill. Actually, its chief purpose is to provide aid to the local schools in communities where defense works have created a situation which makes it impossible for these schools to properly function without help. This bill is but another illustration of the far reaching effects of our defense economy on even local institutions all over the nation. These effects are bound to become more and more evident as time goes on. In many cases, there will be readjustements that will be painful, but I know that the American people will make any sacrifice needed to assure the continuation of our Democratic way of life. And I know that they will agree that we can not make a real "All Out" defense effort and continue to do "business as usual."

With best wishes, I am,

Yours very sicerely,

W. R. POAGE, Congressman,

11th Texas District.

Vegetable Laxative Has Important Points

Most people want a laxative to do three things: (1) act punctually, (2) act thoroughly, (3) act gently.

Here's one that usually fills all three requirements when the easy directions are followed. It's an *all-vegetable* product whose principal ingredient has medical recognition as an "intestinal tonic-laxative."

That's the ingredient which enables BLACK-DRAUGHT to help *tone* lazy bowel muscles. It is the main reason for the satisfying relief from constipation that generally follows next morning when BLACK-DRAUGHT is taken at bedtime. The millions of packages used are proof of its merit.

LONDON DIGGING OUT OF RUINS FROM BOMBS

Soviet Russia has recognized the Pro-Axis government of Irak, it was announced in Macow Monday.

The move by Joseph Stalin puts him in closer march with Hitler.

The Germans are moving troops into Irak and into Syria. The seriousness of the British position was made more precarious because of the movement of German Troops and the possible attack by Russia on the Indian border.

The Germans are moving in two columns to the Suez Canal, one force in Syria and the other in North Africa's Mediterranean coast.

Britain and Germany were exhanging telling air blows. For the first time since the war began, Germany admitted that British planes are taking a serious toll of German life and that Hamburg and Bremen have both been greatly damaged in the past 48 hours.

The British were still digging out of London ruins as the Germans tapered off their assault on the capital to spread wide destruction throughout the midlands and coasts of the island.

Eleven German bombers were shot down.

Three British warships were damaged in the fighting at Benghasi off the Northern Coast of Africa.

London experienced the worst pounding of the war. Loss of life was said to be heavy and many historic buildings were damaged.

HITLER TO GET THE FLEET AND ACTIVE AID

The Government of France driven from Paris by the Germans and now located at Vichy, today capitulated to Adolph Hitler.

It was regarded as certain that Fance will now become an active partner with Germany in bringing about the so called new order in Europe.

The capitulation means that Germany is to have access to the French navy; free access to unoccupied France and right of ways for troop movements into Spain together with all port facilities on the French Mediterranean coast and off the Atlantic.

There was strong belief over the developments that Germany would also get active French support, meaning that France will join in the war on Britain.

Admiral Darlan hater of the British, made under-chief by Marshal Petain, came back yesterday from Paris where he received orders from Hitler through Adolph Abetz, Nazi ruler in France. When he went back, Marshal Petain, hero of Verdun and typical spirit of the France we have known, called his cabinet. It approved the German demands.

If France resists Germany, or if she joins in the war on Britain, she will never rise again. A British victory could not be magnamoius enough to restore France to her once proud position of world power; if Hitler wins without the aid of France, the future is even darker. This would indeed be a strange world where the balance of power did not lie in the shadow of the French Republic.

London newspapers today warned the British people against Rudolph Hess. They fear that British leaders may succumb to the glare of the exploit to make of it some sign of German weakness.

Hess was spending his time writing and talking freely.

When he landed he had with him a hypodermic needle with concentrated food which he said he had used on the way over.

Hess declared he had consumed only 4 hours in transit across the North Sea to Scotland.

Winston Churchill said he would make a statement when he talks with Hess.

Nazi spokesman said Tuesday that Hess would be back in Germany in two days.

John L. Lewis announced today that Allegheny mountain coal districts would be closed with a walk out of miners. The strike situation was believed to be entering another dangerous state.

The Japanese government announced today that Japan would not attempt to give aid to Germany in case the United States undertook a war against Hitler's Reich.

That was taken to mean that Japan is fearful of America's growing naval and military strength in the far east.

Jail Escape Here Prevented by Sheriff

A plot to escape from jail was broken up here by Sheriff Valter White Monday when he discoverd a saw under the bunk of a prisoner in the county jail, smuggled in by another prisoner.

Ira McKinney, trusty, was mowing the lawn on his last day at the jail. J. H. Collins, another prisoner, tossed him 15c to buy three saw blades. McKinney purchased only one saw and spent the other 10c for candy

When McKinney went back to his cell to change clothes as White told him to do, he smuggled the blade to Oscar Jones, another prisoner.

The men planned their flight for Saturday night but believed it dangerous because there were so many people in town.

Sheriff White learned of the plot from another prisoner and found the saw in Jones bunk. He transfered the men to another cell block. One bar had been severed by the saw.
